

Industrial **Lubricants**

Superior formulations providing maximum protection for machinery and equipment in the harshest operating conditions

ANGLOMOIL 
SUPERIOR LUBRICANTS

PROTECTING YOUR INVESTMENT

Internationally Approved **Extended Life**

Since 1975 Anglomoil has been manufacturing premium lubricants renowned for their scientific innovation, outstanding performance in arduous operating conditions and cost saving longevity. The Anglomoil Industrial range is based on exclusive formulations using world-best ingredients and special additives which meet and exceed OEM standards.

Anglomoil is **The Complete Industrial Machinery & Equipment Solution** for fixed and mobile assets including compressors, pumps, turbines, hydraulic systems, gear sets, bearings, chain drives, recirculating oil systems and pneumatic tools.

- 🔥 **Extreme Pressure (EP) formulations**
- 🔥 **High wear resistance**
- 🔥 **Perform in extreme hot/cold conditions**
- 🔥 **Excellent water resistance**
- 🔥 **Improved bearing & gear set protection**
- 🔥 **Thermal stability**
- 🔥 **High chemical stability**
- 🔥 **Minimise deposits & contamination**
- 🔥 **Corrosion protection**
- 🔥 **Foam control**
- 🔥 **Improve cooling**
- 🔥 **Longer drain intervals**
- 🔥 **Reduced oil costs**

Hydraulic Oils

AW Hydraulic Oil

High quality Group 2 oil provides outstanding wear resistance. ISO 32, 46, 68.

Hydraulic BIO-FR

Biodegradable and Fire-resistant Synthetic, Organic Ester Based Hydraulic Oil. ISO 46, 68.

HVI Hydraulic Oil

Supreme performance in extremely high and low (sub zero) operating temperatures. ISO 5, 32, 46, 68, and 100.

Hydraulic ZF

Advanced ash less technology for high performance in severe conditions. ISO 32, 46, 68, 100 & 150.

Premium Hydraulic Oil

High performance zinc anti-wear additives. ISO 12,32,46,68,100,150 & 220.

Synthetic Hydraulic Oil

Synthetic base provides high chemical stability for ultra long service life. ISO 32, 46 & 68.

Machine & Industrial Gear Oils

Gear M

Extreme Pressure (EP) mineral based oils enhanced with molybdenum disulphide for handling extreme loads. ISO 220, 320, 460 & 680.

Indsyn EP Gear Oil

High performance synthetic provides Micropitting protection in extreme temperatures and heavy load conditions. ISO 150, 220, 460 & 680.

Indsyn Gear Oil

Features synthetic Poly Alpha Olefin base and special additives. ISO 32, 100, 150, 220, 320, 460 & 680.

Machine Oil

High viscosity EP sulphur-phosphorous agents for high load protection. ISO 22, 68, 100, 150, 220, 320, 460 & 680.

Extreme Performance Value For Money

Compressor Lubricants

BIO PAG CL ISO 46

A Rapidly Biodegradable, Synthetic polyalkylene glycol (PAG) and polyol ester compressor oil.

Compressor S/R

Mineral based for rotary screw compressors, turbines, hydraulic systems. Provides up to 4000 hours service life. ISO 46, 68 & 100.

Compressor H/R

Ash-less Mineral based lubricant for Piston and hydrovane Compressors. ISO 100 & 150.

Rotary Synthetic Compressor Oil (RCO 46 & 68)

Synthetic hydrocarbon Poly Alpha Olefin base Provides up to 8000 or more hours of service life; for rotary axial flow compressors. ISO 46 & 68.

Specialty Oils & Lubricants

Air Line Lubricant

Lubricate and cools pneumatic tools. ISO 22.

Chain Oil

Premium mineral base oil formulation protects conveyor chains and chainsaw chain, bar and sprocket in extreme work conditions.

Circoil

Long lasting lubrication for circulating bearings; excels in extreme conditions such as water contamination. ISO 150 & 460.

Corcoil NTRM

Extra heavy duty formulation for circulating bearings in heavy load conditions. ISO 150, 220, 320 & 460.

DW Fluid

Solvent based protection barrier; displaces moisture and prevents corrosion.

Heatrans Oil

Mineral base oil with advanced additives provides protection in high temperature continuous heat transfer conditions. ISO 32 & 100.

Mould Release Oil

Low viscosity release agent for various materials (steel, concrete, clay and wood).

Rock Drill Oil

Combination of selected mineral oils, emulsifiers and tack additives with a corrosion inhibitor. ISO 100 & 320.

Greases

Impactor Grease

No. 1.5 NLGI Grease with calcium sulphonate base and part synthetic base oils. Contains molybdenum disulphide and graphite to enhance the load carrying properties.

Uniplex Grease

No. 2 NLGI grease with calcium sulphonate complex soap base. High load carrying capacity, excellent resistance to water and corrosion. (Also Available in NLGI 1)

G-2163 Grease

No.2 NLGI marine service and industrial grease built upon calcium sulphonate complex base and high viscosity base oil. G-2163 is ideal for severe industrial applications, eg. pulp mills, steel mills and as marine deck grease.

Angloplex Grease NLGI 2

Premium multi purpose lithium complex lubricating grease.

EP 0 & 00 Grease

Lithium 12 hydroxy lubricating grease formulated with the highest quality base oils available. Fortified with rust and oxidation inhibitors as well as extreme pressure additives.

Wire Rope Lubricant

High Viscosity, high temperature wire rope-cable lubricant. Calcium sulphonate technology provides against corrosion and wear.

Robotic 00

Anglomoil Robotic Grease is a technically superior lubricant, combining the properties of calcium sulphonate, synthetic base oils and enhanced by the low friction characteristics of PTFE (polytetrafluorethylene).

Food Grade Machinery Lubricants Available at www.anglomoil.com

Engineering **Excellence Since 1975**

A 100% Australian owned and operated company, Anglomoil recognised throughout the lubricant industry as a manufacturer of exceptionally high quality, high performance and no-compromise products.

Our products are blend in our state of the art production plant in Sydney and used across Australia, New Zealand and Asia.

Our philosophy is one of
“total excellence in all we do.”
so that we can Protect Your Investment

““ **We Have Never Had A Problem With Their Products**

PremiAir Hire has hundreds of compressors and since we began using Anglomoil not one service manager has rung through with a problem. To not hear a single comment in all this time is outstanding. The Anglomoil food grade oil is obviously a higher end application with very strict benchmarks to meet. We have not had any issues, it works faultlessly for all of our food grade customers. We use the Anglomoil RCO in our high powered machines which operate at higher pressures and with higher temperatures. The whole fleet is running fine and has not had any problems. The added bonus is that the Anglomoil products are competitive on price and when it comes to after sales service the team from Anglomoil are always keen to provide advice. They have a very effective distribution service for orders going to any of our 13 depots in Australia. We couldn't be happier.

PremiAir Hire

““ We service a wide range of companies across regional New South Wales in mining, quarrying, timber logging, food manufacturing and other industries. The common result we see in all of them is that Anglomoil lubricants have substantially reduced their operating costs. **Some of the savings are as much as 75% which is unheard of in these industries.** This is because Anglomoil's synthetic gear oils, engine and transmission oils, hydraulic lubricants, greases and other products are far superior to the rest. Our customers use a lot less than before, their equipment **operates more efficiently and they experience very little down time.** It is so important to select the right lubricant for the job - even if it means paying a bit more upfront. You end up using less and the savings far outweigh the cost difference. As it is, Anglomoil's products are very well priced against the others. Anglomoil is very good at reducing the cost of ownership no matter what business you are in. ””

Toucan Industrial

Instant **Information**

Four convenient ways in which you can learn more about the right Anglomoil products for your application.

- 1. Go to the Anglomoil Lube Guide www.anglomoil.com** and click on the Lube Guide button
- 2. Technical Data Sheet (TDS)**
A downloadable-printable data sheet is available with every product on the Anglomoil website
- 3. Material Safety Data Sheet (MSDS)**
A downloadable-printable data sheet is available with every product on the Anglomoil website
- 4. info@anglomoil.com**
Simply send an email to the Sales Support Department at head office with your request or contact your local distributor
