

Product Description

Anglomoil EuroTrans 75W/80 is a premium full synthetic manual transmission oil for synchromesh manual gearboxes.

Product Application

Anglomoil EuroTrans 75W/80 was developed to provide a higher level of driver comfort, easier gear shifting, and with improved oxidative and thermal stability giving extended oil drain intervals.

Product Features & Benefits

Anglomoil EuroTrans 75W/80 is for commercial vehicle synchronised manual transmissions and provides

- Long oil life
- Reduced oil use
- Proven performance for synchromesh, high loads and high temperatures
- Clean internal surfaces of transmission
- Multi-vehicle versatility
- Synchromesh performance for manual transmissions
- Optimum gear shifting
- Oil viscosity profile maintained by the use of shear stable components
- Extended oil drain interval
- Excellent thermal and oxidative stability inhibiting oil thickening and deposit formation providing better component protection
- Excellent rust and corrosion prevention providing superior system protection from water and moisture providing longer life of the automotive transmission
- Exceeds the API GL-4 performance level

Additional Information

Anglomoil EuroTrans 75W/80 meets the licence requirements for:

API GL-4	MAN 341 E-3	Volvo 97305—80
DAF	MAN 341 Z-3	ZF TE-ML 02D
IVECO	Renault	ZF TE-ML 08
Eaton Extended Drain (300,000 km)		
RENAULT (in accordance with RENAULT Note Technique B0032/2 Annex 3)		

Typical Characteristics

Density @20°C	0.855
KV @100°C cSt	10.6
KV @100°C cSt After 20hr KRL Shear Test	89.8
Viscosity @ 40°C	63.9
Viscosity Index	157
Brookfield Viscosity @-40°C cP	109,400
