

Product Description

Auto Type MV CVT is a premium quality full synthetic CVT Fluid suitable for use in both belt and chain driven CVT applications.

Product Features & Benefits

Auto Type MV CVT: Is formulated as a full synthetic superior performance long drain automatic transmission fluid manufactured from the latest CVT additive technology and advanced synthetic and ultra-pure hydrocracked base oils to meet or exceed the requirements of the latest vehicles and specifications.

Application: **Auto Type MV CVT is recommended for use in all belt and chain CVT applications.**

CVT's have been around since its introduction in Nth America in the 1996 Honda. A CVT Fluid must perform well in the following areas. it must be of optimum viscosity, have good wet clutch performance and frictional characteristics, protect the CVT from fatigue damage, provide good antifoaming characteristics and have good oxidation stability. These qualities are inherent in **Auto Type MV CVT**.

The benefits of **Auto Type MV CVT** are:

- Good shear stability
- Low temperature
- High Metal to metal Friction between the belt and pulley
- Excellent Anti-Shudder durability
- Excellent oxidation stability
- Good EP and anti-wear performance
- Excellent anti-foaming properties
- A multi-vehicle CVT Fluid providing excellent performance in a wide-range of CVT-equipped

Additional Information

Auto Type MV CVT is suitable for use in both belt-CVT's and Chain-CVT applications.

A recommendation list is on the next page of this product data sheet.

Typical Characteristics

Characteristic	Value	Characteristic	Value
Viscosity @ 100°C	7.2	TAN	2.2
Viscosity @ 40°C	33.9	TBN	2.1
Viscosity Index	183	KRL 20 hrs. % Vis. Loss	6.49
Density @ 20°C	0.852	KRL 40 hrs. % Vis. Loss	9.5%
Brookfield Viscosity @-40 °C cP	9,570		6.22
FZG Visual Scuffing @150°C	11 Stage Pass		13.4%

Anglomoil Auto Type MV CVT Fluid is recommended for use in the following applications:

OEM and CVT Fluid	CVT Type
Audi / VW (G052 516, G052 180)	Chain
Ford (CVT30 / WWS-M2C933-A / Motorcraft XT-7-QCFT, Mercon C)	Chain
Subaru (Lineartronic CVTF, high torque CVTF, K0425Y0710)	Chain
Honda HCF2, HMMF with Torque Converter	Belt
Toyota (TC, CVT-FE)	Belt
BMW 8322 0 136 376 / 8322 0 429 154 (EZL 799A)	Belt
Nissan NS-1 / NS-2 / NS-3	Belt
Mazda CVTF 3320	Belt
Mitsubishi DiaQueen (CVTF J-1, CVTF J-4)	Belt
Honda (HMMF with Start Clutch)	Belt
Subaru ECVT, ICVT, CV30	Belt
Punch CVT (EZL779)	Belt
Daihatsu Ammix CVT, Daihatsu Ammix CVTF-DFE	Belt
Mini Cooper (EZL 799 A / ZF CVT +4)	Belt
Hyundai / Kia (SP-CVT V1)	Belt
Suzuki (CVTF 3320, TC, NS-2, CVTF Green 1, CVTF Green 2)	Belt
Chrysler Jeep NS-2	Belt
Dodge / Jeep (NS-2 / CVTF+4)	Belt
GM / Saturn (DEX-CVT, GM CVT)	Belt
Ford (CVT23)	Belt
Toyota / Lexus (TC, FE, WS (Prius eCVT only))	Belt
Shell Green 1 V	Belt
Mercedes Benz (236.20)	Belt

Master Item# 1203
 Pack Size Availability: 5L, 20L, 200L
