

SYNCUT

Synthetic Cutting Oil

Product Description

Anglomoil Syncut is an oil-rejecting synthetic coolant concentrate formulated for all types of metals and alloys, including cast iron, steels, stainless, and nonferrous materials.

Product Features & Benefits

Anglomoil Syncut contains no DEA, chlorinated, sulfurized, or phosphorus-containing additives. Anglomoil Syncut is fortified against microorganism attack through the incorporation of a bactericide/fungicide package.

Anglomoil Syncut offers excellent corrosion inhibition (no corrosion @ 24 hours at 33:1 dilution), good hard water stability (transparent solution @ 24 hours in 600ppm H₂O), low foam tendency, and complete oil rejecting properties for clean running machines and parts.

Additional Information

Some applications for Anglomoil Syncut:

Surface and Cylindrical Grinding	25:1
Centerless Grinding	25:1
CNC Machining	25:1 – 14:1

Typical Characteristics

Appearance	Clear Yellow
Density	1.04
pH, Neat (5% Concentration)	10.2 (9.4)
Acid Value	90
Total Alkalinity (meqHCL/g)	18

Master Item# 2605
 Pack Size Availability: 20L, 200L
