

Product Description

Anglomoil Chain Lube is an all-purpose lubricant designed to lubricate, protect, waterproof surfaces from friction, abrading, binding, corroding, scratching and helps prevent squeaking. It is an ideal lubricant for forklift chains, motorcycle chains and any other surface that requires a tenacious lubricating film. Suits metal hinges, door catches, striker plates, cables and springs, outboard motors, chains, winches, jacks, garden tools etc. it is suitable for Automotive (cars, trucks, tractors and trailers), agriculture, marine, general industrial and household use.

Directions For Use

Shake the can for about 1 minute to ensure uniformity of contents. Spray onto the parts to be lubricated. Apply with short even strokes at 25-30cm from surface. For lubrication apply liberally onto the affected parts. To effect maximum penetration and corrosion protection, apply additional coats. Spray periodically as required.

Caution

Do not spray onto hard surface floors or where there is foot traffic as it may lubricate the floor leading to slippage causing personal injury.

Usage

Under normal usage the Anglomoil Chain Lube will provide up to 400 spray applications per 400 gram can. Usage will also be dependant on the duration of the spray. Anglomoil Chain Lube on bearings can withstand 23 Kg loads and 140 Deg C temperatures without losing efficiency.

Pack Size

400 grams (12/CTN)
